NOTES:

- 1) The delay in the materialization of the investments in category A, B and C is due to the later than expected collection of the amount of the increase of the share capital (04/26/2005). For this reason the company with its BoD decision on 21/9/2005 carried forward the investment plan.
- 2) The amount of € 1,490 thousand regarding the Investments of categories C & D (expansion to Bulgaria and Romania respectively) has to do with the indirect (through 100% subsidiary in Cyprus) participation to the share capital of foreign companies located in Romania and Bulgaria which in turn will perform the aforementioned investments.
- 3) The non-allocated funds amounting to € 9.285 thousand approximately, are invested in short-term low-risk investments (time deposits).
